Miscellaneous:	Azure | MongoDB | Microservices | Spring Cloud | Docker | Kubernetes | Kafka | RabbitMQ

PROJECTS

E-Commerce Application *Angular + SpringBoot + MySql* https://github.com/Kartikk1127/E-commerce
A full stack web application where customers can browse through products, add items to their cart, make secure payments, and have the products delivered to their doorstep. The application typically includes features such as product listings, shopping carts, checkout pages, secure payment processing etc. Currently working on authentication part.

CRM *Spring MVC | Hibernate*   https://github.com/Kartikk1127/Customer-Relationship-Manager
Customer Relationship Manager is a management webapp where one can create, update, read, delete users. Spring and hibernate have been used at the backend and currently working on it.

Food Order *Angular + Spring*   https://github.com/Kartikk1127/angular_food_order
A food order webapp where one can search, rate, add food to cart,remove food from cart and also order food from the list of foods provided in the webapp. Made use of component interaction, ngModules and various other techniques and now working on the backend using Spring.

Social Blog *Ruby on Rails*   https://github.com/Kartikk1127/Maze-Ruby-on-rails
A blog app with multiple users where users can make public/private posts and comment/like on each other's posts, admin can download the posts in xls or csv and can also activate / deactivate the users.Works just like a social media. Made use of devise gem for authentication and two roles for users and admin.

ACHIEVEMENTS

Full Spring, SpringBoot Course   Udemy
Completed a course on Spring, SpringBoot and Hibernate and got certified.   2022

Innovative India Coding Challenge(Finalist)   Coding Ninjas
Was one of the finalist in the IICC by coding ninjas that was held all over India.   2022
